

**Khalil Youssef**  
**Mechanical Engineer**

Dear,

Having worked in several companies as a mechanical engineer, I'm really excited to learn from you about an opening (recent or upcoming).

Your firm is well-known for its outstanding design, ingenuity, and technical excellence in the fields of engineering with a distinct and diverse portfolio of projects. This makes the opportunity of working with you, a quality addition to my expertise. I have a 4+ years experience collected from different projects in Lebanon and K.S.A. including metro stations, residential buildings, commercial centers, compounds, hospitals, and others.

I would appreciate the opportunity to discuss these and other experiences with you and to find out more about your firm. I look forward to hearing from you soon.

Sincerely,  
Khalil Youssef
